

Asipo Algicidal External

PRODUCT DATA

Description

Clear single pack water-borne algicidal wash. A very effective biocide to protect against lichens, mosses and algae. Long term protection against re-growth. Easy to apply can be over-coated with most masonry paints.

Can also be used as algicidal wash on patios, external paving, brick & block work.

Area of use

Exterior

Substrates

Concrete, render, brick and general masonry

Packing

5 litres

Physical Constants

Colour: Clear

Finish: N/A

Volume solids: N/A

Theoretical spreading rate: 15 - 20 sq. metres per litre (dependant on porosity)

Flash point: N/A

Specific gravity: 1.0 – 1.01

Dry to touch: 2 hours (20°C)

Over-coating time: 6 hours

**The theoretical spreading rate has been calculated for the stated volume solids and dry film thickness. A practical spreading rate will depend on the actual dry film thickness, the nature of the substrate, and the relevant consumption factor. The physical constants are subject to normal manufacturing tolerances.*

Application Details

Application method: Brush or spray

Thinner: Do not thin

Cleaning of tools: Water

Surface condition

The surface should be stable, firm, dry and free of dust, sand, loose old paint, dirt, grease and oil.

Please refer to the Material Safety Data Sheet for further information.

For additional guidance please contact your local Technical Sales Representative.

SAFETY: Handle with care. Before and during use, observe all safety labels on packaging and paint containers, consult Material Safety Data Sheets and follow all local or national safety regulations.
